

Viskon-Aire's fiberglass media pocket filter is offered in a wide range of efficiencies and sizes, capable of being used in most commercial and industrial applications including hospitals, pharmaceutical facilities, office buildings, automobile plants and aerospace finishing

- Low initial pressure drop, superior dust holding capacity and extended service life
- High performance fiberglass media creates dual-stage filtration to enhance depth loading
- Manufactured on state-of-the-art stitching equipment with stitch lines thermoplastically sealed to eliminate air bypass
- Roll-formed, galvanized steel header with individual aluminum pocket spacers

Benefits and Features

- Low Initial Resistance
- Long Service Life
- Reduced Maintenance
- Rigid Frame Construction
- Aerodynamic pocket design
- Extensive offering of widths, lengths, depths and pockets
- Custom sizes are available upon request

	FG Series (95%)	FG Series (85%)	FG Series (65%)
Primary Application	Premium pocket filter for use in hospitals, schools and commercial, industrial and biotechnology facilities		
Construction	100% micro fiberglass media employing mechanical filtration properties to ensure permanent efficiency over the life of the filter		
Rating	MERV 14	MERV 13	MERV 12
Resistance			
Initial	0.52" in w.g.	0.40" in w.g.	0.32" in w.g.
Final	1.00" in w.g.	1.00" in w.g.	1.00" in w.g.
Dust Holding Capacity	305 Grams	435 Grams	1,014 Grams

Our Company

For over 30 years, Viskon-Aire Corp. has engineered and manufactured a wide range of air filter products to meet the diverse needs of our customers.

Our filters are used in commercial and government buildings, schools, hospitals and a diverse range of industrial settings, including automobile and aerospace painting, metal fabrication and wood finishing.

Commitment to Our Customer

The air filtration market continues to evolve. To meet these changes, we work in partnership with our customers to not only improve our existing products but also design and develop new products to create an ever cleaner environment in a cost-effective, energy efficient manner.

Commitment to Quality

At Viskon-Aire, we constantly monitor and adjust our manufacturing processes to ensure our products are of the highest quality. We work with our suppliers to procure raw materials that meet our demanding product specifications and final products are regularly tested by independent laboratories to adhere to industry standards.
